Dear Council,

I don't have the ability to go into all the details.

As stated to the police, on body cam, on the 9/4/25 my mental health is broken and needs time to fix.

As I now have access to the legally trained person, Lloyd Sparks, I have been asking for two years - any and all communication is to go via Lloyd.

This does not put any responsibility on Lloyd other than to pass on messages - allowing for my current mental health, something the council has only shown sincere disregard towards.

As I now have to obey a document:

- I have not read
- for 12m
- only help for my mental health has been taken away, twitter
- there cannot be anything to affect my stability / predictable / routine

- Lloyd and I have already started working on the plan. The council will be updated when appropriate
- Lloyd also checked inside my flat, therefore there is no need to do,

Also:

- No3 is still making everyone here feel UNSAFE
- I am supposed to go out when they do - official council response
- What is happening with their allegation that I am a pedo?
- Until they leave I am living like a prisoner in my own home.

Remember: All communication is now to go via Lloyd.

Yours Sincerely,

SIMON EDGLEY
