

THURSDAY, 24 JULY 2025

Sir,

My ten years homeless has left me with no one or nothing.
Today my brain finally managed to connect an apparent impossible pattern of dots.

Safeguarding: The Holistic right everyone has to live a life that is Safe and Free from Abuse.

Ha, go look at abuse definitions in The New Care Act.
I get BINGO (other than race etc) which means ive been raped.

As well as, falsely, being accused of one.

Why? Because when a Narcissistic needs to remove Old Supply for their New Supply - they must make sure to discredit the old. And so she called the Police, lied about me raping her - which resulted in arrest and goal.

Thing is Doc, that was a quiet 6 months in the life the Council are forcing me to live - ignoring my needs and care. Wellbeing? Means as much as Safeguarding.

Even my social worker, a result of my MP and Minister of Safeguarding spending about 10k to get an ASBO that the police forced me to sign via threats, manipulation - all on Officer 808 body cam.

My human right of have a lawyer read, as my mental health was so bad I was, lets just say a walking retarded muppet, was refused and I was told if I insist things would only get more difficult for me.

Oh, Carrie from Council Housing was there, on the coppers side, doing the one thing a mother of two autistic kids knows is wrong - stare at me, without breaking eye contact for the 20/30 min this abuse went on.

I digress. Turns out both the Safeguarding and Abuse policies of Suffolk Council have hidden clauses which, Safeguarding told me directly, allows them to decide to exclude someone if they so feel.

Safeguarding then told me they had decided to ignore their policy and leave my abuses to continue to abuse me.

Stop Simon - this is Safeguarding, no explanation, no judgment, just made safe.

The only option left is for me to go to Ipswich Court and invoke the Fast Track Access to a Judge to get the council forced to make me safe.

What is confusing me, is you. Out of the 30+ GPs in the 7? Surgeries over the last ten years, you are, without the slightest doubt the only GP whom deserves those letters. The rest? They signed the Hypocritical Oath.

Therefore, I am compelled to be at the surgery at 7.30am given this is about Safeguarding. Which means what was the point of writing this when you are not going to get it in time.

Yours Sincerely,

SIMON EDGLEY
